

VEL724BEV4KT

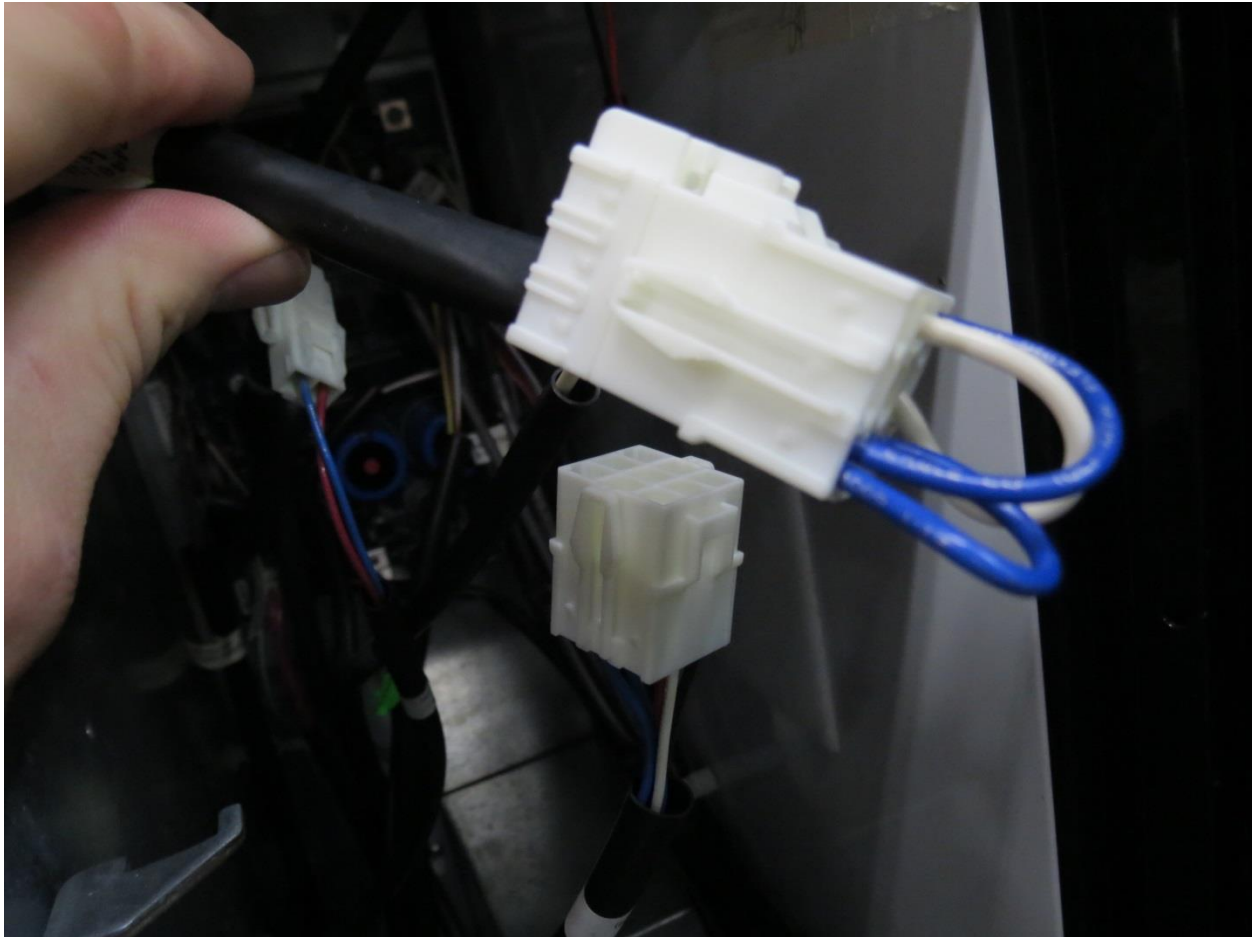

Installation instructions for Dixie Narco Bev Max IV LED Kit

Kit includes the following items:

- (1) Installation Instructions
- (3) LED Light Tubes VEL724BFD10W
- (1) Jumper Plug and Harness Kit Part No. VEL724BEV4

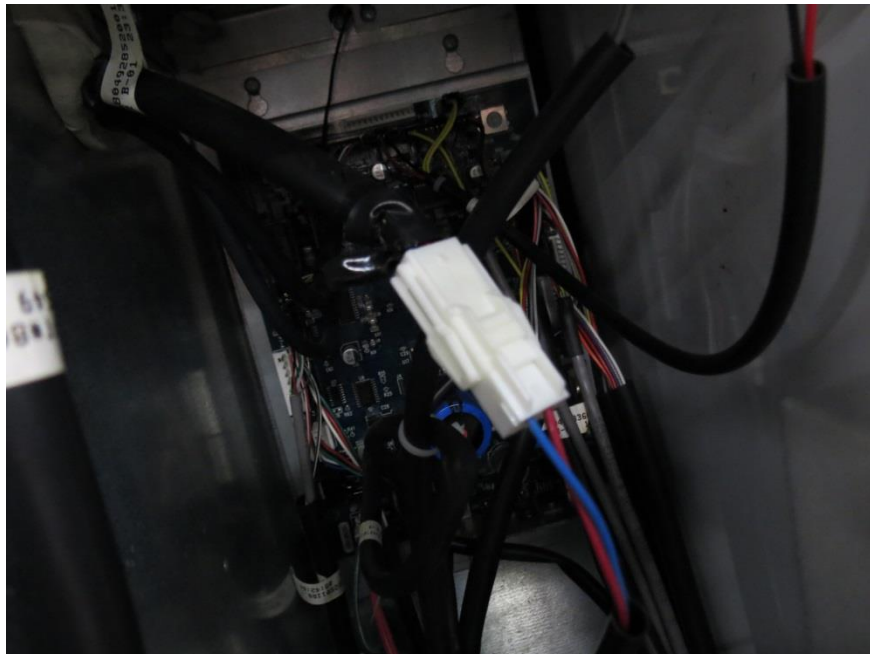

1. Turn power off and unplug the machine.
2. Unplug the front ballast from the fluorescent light fixtures.
3. Plug the provided jumper plug into the machine plug where the ballast was plugged in.

4. Unplug both sides of the back ballast and use the jumper harness to bybass the ballast (eliminating the ballast from the circuit).

5. Take out the 3 screws and remove the plastic lens cover on the top side light.
6. Remove the fluorescent bulb.
7. Repeat this procedure on the bottom side light.

8. Install LED tubes in the top and bottom side fixture and replace the plastic light covers.

9. Remove the florescent bulb from the fixture on the top of the machine and replace it with an LED tube.

10. Installation is done, you can now power up the machine.
