

THE VE KIOSK

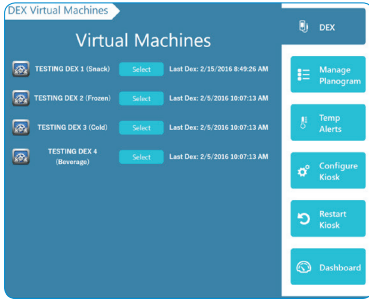

One Backend. One Reporting System. One Kiosk.

As easy as setting up a new machine, the VE Kiosk is expertly configured to engage customers to easily purchase multiple items, manage the temperature of attached food coolers, and allow for loyalty and credit cards.

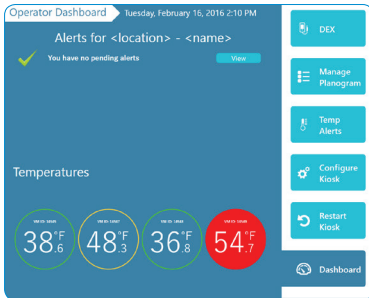

VIRTUAL VENDING MACHINES

DEX like a normal vending machine with snack, cooler & freezer options.

TEMPERATURE SENSORS

Alert you via email when the temperature is at unsafe levels.

MANAGE BY VMS

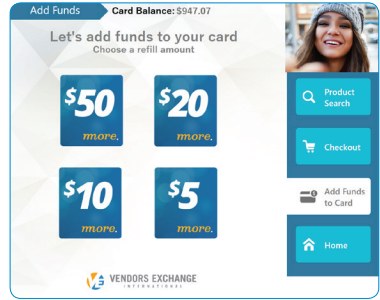

Currently compatible with Vendsys and Streamware to easily manage vending & micro-markets on one solution.

LARGE TOUCHSCREEN

19 Inch Display for dynamic visuals.

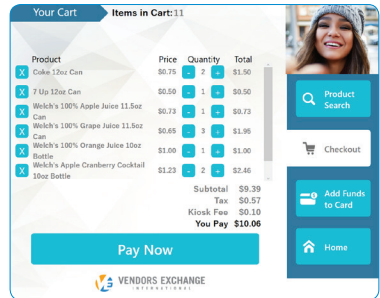

BUILD LOYALTY

Capitalize on the cashless revolution, with stored value cards. Using the USAT More card. *more.*

SHOPPING CART

Allows customers to purchase multiple items on one transaction.

ITEM LOCK-OUT

Once unsafe temperatures are reached the items in that cooler are not available for sale.

OPTIONS INCLUDED

Mousepad, MEI or Pyramid Reader, Receipt Printer.
